ATLANTA, GA – JANUARY 12, 2009. Tridia Corporation, the leader in remote access and support software for Linux and UNIX, announces that Road Ranger L.L.C has selected iTivity to support its retail petroleum retail convenience store chain.

“PCI compliance is critical to any business that accepts credit card payments.”, says Vince Frese, Tridia’s President & CEO. “We are pleased that Road Ranger selected iTivity to provide PCI compliant remote support for all of its store locations.”

Road Ranger is hosting iTivity on their network insuring privacy and control of data, critical to PCI compliance. Because iTivity is premise-based, it allows for ready integration into Road Rangers applications and workflow. iTivity’s architecture provides extremely secure connectivity. All remote connections are managed by the central iServer that makes managing and auditing access easy, secure, and compliant.

About Road Ranger

Road Ranger is a leading Midwest retail petroleum convenience store chain that operates over fifty company locations in the states of Illinois, Iowa, Kentucky, Indiana, Missouri, Wisconsin and Ohio. Founded in 1984, the company currently employs approximately 1,000 individuals and has approximately \$900 million in annual revenues.

About Tridia Corporation

Founded in 1987, Tridia has been the market leader in Linux and UNIX remote access and support solutions for almost two decades. Tridia has over 3,300 customers and more than 20,000 installations worldwide. Tridia launched iTivity in 2004 as the first premise-based remote access and support solution for use on private and public networks that can be customized and integrated into existing workflows and applications. Tridia’s products allow ISVs, VARs and IT Solution Providers to increase worker productivity, lower support costs, improve customer satisfaction, insure compliance and increase sales.
